3) Technical scoping to connect to other catalogs – July 2016
4) Strengthen sharing with federal partners – July 2016
5) Develop data to fill gaps – Oct 2016
6) Inform baseline science assessment - ongoing

▶ Budget $50K coordination and data development

Moore Activities

1) Identify priority catalogs and people (Coordinator + ITWG)
2) Survey RPB to determine additional needs (ACT)
3) Develop catalog recommendations (ITWG)
4) Research priority catalogs (Coordinator + ITWG)
5) Scope technical requirements (ITWG)
6) Develop summary report (Coordinator)
7) Complete technical steps, where possible (ITWG)

Priority Catalogs

- DataBasin

- WA Marine Spatial Planning Tool

- PISCO

- Digital Coast

- CA Coastal Atlas

- AK Shorezone/Axiom
- PSMFC

Connection Issues

- Data.gov
  - Harvest request being rejected
  - Header 'User.agent' modification
  - Recompile java?

- BC Marine Conservation Analysis
  - North American Profile schema
  - Need to locate official copy of profile
  - Validate against appropriate profile
  - Reach out to Marten H? Investigate fee/access to profile?

Operations Update

- New Servers + Dev Env
  - Need to provide backup directories

- New Management Guide
  - https://docs.google.com/document/d/1f-Igy6W

Application Status

- ▶ Marine Planner
  - Hope to modify default data range for marine debris data
  - User unable to 'update filter'

- ▶ Marine Debris Database
  - Multiple issues with upload, download of data
  - Postgres architecture

- ▶ Climate Change Funding Wizard
  - Working fine…
